GO enrichment — clusters 3, 6, 8, 9
head development (GO:BP)
system development (GO:BP)
animal organ development (GO:BP)
animal organ morphogenesis (GO:BP)
regulation of tube size (GO:BP)
system development (GO:BP)
regulation of RNA metabolic process (GO:BP)
regulation of nucleobase-containing compound metabolic process (GO:BP)
DNA-templated transcription (GO:BP)
amnioserosa maintenance (GO:BP)
tissue homeostasis (GO:BP)
anatomical structure homeostasis (GO:BP)
